

# California Girl

## Cheap Trick

There's a bad little girl  
In the neighborhood  
She's got backstreet savvy  
Up to no good  
She looks my way all wound up tight  
Bitin' her lips, hoo! ready to fight  
She's a California girl  
She's a California girl  
She's a bad little girl  
And I know I'm gonna make her mine  
Oh, just like a cat  
She scratched my back  
Under the midnight moon  
Hollywood baby  
Up to no good  
She looks that way  
All jacked up tight  
Bitin' her lips, hoo! shakin' her hips  
She's a California girl  
She's a California girl  
She's a bad little girl  
And I know I'm gonna make her mine, hoo!  
She's the devil's little lady  
And my little girl  
Sex in the city  
She looks my way all wound up tight  
All bitin' her lips, hoo! awww yeah!  
There's a California girl  
In the neighborhood  
She's got a back street savy  
Up to no good  
She looks my way  
She's all half cocked  
Walkin' the walk  
Get ready to rock!  
She's a California girl  
She's a California girl  
She's a California girl  
And I know I'm gonna make her mine  
whoo!  
She's a California girl (California girl)  
She's a California girl (California girl)  
She's a California girl (California girl)  
She's a California girl (California girl)  
She's a California girl  
Know I'm gonna make her mine  
whoo!
