

Shred A

Le Tigre

You by my side, get no reply to clarify you, you just know
You're wastin' my time, you're wastin' my time
There goes a good gone by right on time
I'm ready come try and clip this fire
Now baby, I won't show you nothin', don't want to
I just know who you are, a waste of my time
A waste of my time, a waste of my time
You wasted my time
It's all so precious and you throw it away
It's all so precious and you throw it all away
Throw it away
You, you're not good enough for me to even despise
You wasted my, you wasted my, you wasted my
You wasted my time, said behead

Said say correct, shred project say A confine
Lay on pain, I laid on your pain, lay on pain
You got a thing for wastin' my time
Wastin' my, wastin' my, wastin' my time
It's all so precious and you throw it away
It's all so precious and you throw it all away
Away, away, away
It's all so precious and you throw it away
It's all so precious and you throw it all away
Away, away, away
It's all so precious and you throw it away
It's all so precious and you throw it all away
