Make Me Fall

Nina Nesbitt

Sometimes I wish
We could just love
The way we did
When we weren't grown-upAll these things I do
They're never quite enough
And I've nothing to prove
I'm all out of luckSo I'll keep running into the rain
Heart first, Head second, I'm away
I'll keep running, Running away
With my heart there
For you to takeSo make me fall in love
Even if I get hurt
I'll be the only fool in the world
Just make me fall in love
In love, In love, In love
In love, In love, In love
In love, In love, In love
Just make me fall in loveSometimes I think
I think too much
My mind is ticking like a clock that never stops
All these things you do,
Well they are more than enough
I've got something to prove
And I'm feeling in luckSo I'll keep running into the rain
Heart first, Head second, I'm away
I'll keep running, Running away
With my heart there
For you to takeSo make me fall in love
Even if I get hurt
I'll be the only fool in the world
Just make me fall in loveIn love, In love, In love,
In love, In love, In love,
In love, In love, In love
Just make me fall in loveIn love, In love, In love
In love, In love, In love
In love, In love, In love
In love, In love, In love
In love, In love, In love
In love, In love, In love

Just make me fall in loveJust make me fall in love
