Iggy Pop

I work so hard man, so don't trip me up
Shakin' a leg like the tail o' the pup
I'm payin' dues till I register heat
Sure hope I don't end up on the street
Home boy, home boy
Everybody needs a home
Home boy, home boy
Everybody needs a home
So many people rise and fall
Who's lookin' after you at all?
Nobody knows anybody at all
Strangers in paradise down at the mall
Home boy, home boy
Everybody needs a home
Home boy, home boy
Everybody needs a home
Home, home
Everybody really needs a home
Home home
Everybody needs a home
The life we live is tricky tricky
I love my home and my family
Who's gonna love you when the mountains gets steep?
We're gonna make it-in a jeep
