

Go On Home

William Elliott Whitmore

A big dark cloud is hangin' low
Follows me everywhere I go
Leaves a shadow on the ground
I can't recall when it wasn't so
It's time, time to go home
It's time to go on home What the hell is goin' on
I've been away for far too long
I've forgotten what it's like to stop
Spent my time just bein' gone
It's time, time to go home
It's time to go on home
I've been bad 'n' I've been unkind
I can't stand myself sometimes
This place has laid me low
And I think I've lost my mind
It's time, time to go home
It's time to go on home
The whole damn thing is fallin' apart
Life is easy, it's livin' that's hard
It's time, time to go home
It's time to go on home
