

# Revolution

## My Radio

Star crossed lover  
Wait up, don't leave me.  
There is a light like no other  
It's pulling me far out to sea.  
Come to me  
Come to me.Let's start a revolution here tonight  
We'll start a revolution here tonight  
We could be fearless tonight  
We should be fearless, Hero.Star struck lover  
Wait up, don't leave me.  
You are a girl like no other  
You're pulling me far out to sea.  
Come to me  
Come to me.Let's start a revolution here tonight  
We'll start a revolution here tonight  
We could be fearless tonight  
We should be fearless.Hold on to me  
Fearlessly come with me  
We will change the world we see.  
Fearlessly come to me  
We will turn our destiny.Let's start a revolution here tonight  
We'll start a revolution here tonight  
We could be fearless tonight  
We should be fearless.  
Let's start a revolution. We'll start a revolution, Hero.
