

No Shelter

[Seether](#)

Today you seem a little far away
I hate that I don't have the words to say
I'm bored with all the little games you play
A cage is never gonna make me stay If we don't help ourselves we'll fall
I find no comfort in this world I'll never find my way in a broken mind
No shelter for me
I'll never compensate just to keep you mine
No shelter for me Awake, I need a little comforting
I break my mind is sick of wandering
I'm yours, I love it when I'm suffering
Too late, I don't believe in anything If we don't help ourselves we'll fall
I find no comfort in this world I'll never find my way in a broken mind
No shelter for me
I'll never compensate just to keep you mine
No shelter for me There's no shelter here
There's no shelter, no way out I'll never find my way in a broken mind
No shelter for me
I'll never compensate just to keep you mine
No shelter for me I'll never find my way in a broken mind
No shelter for me
I'll never compensate just to keep you mine
No shelter for me
