Country Girl

James Iha

Hallelujah, I'm in love with a girl from the country
She's got no money just a smile I'm in love with
We go running I don't care where to till the mourning
There's a part of you that never dies I'm in love with
If I give you everything you'll ever need and it all comes down to
Your half smile, country mile, angel child
When night is falling you dream of city lights

You hear them calling you hold my hand and then we
Cry I'm in love with
And I can't find any other way to live and it all comes back to
Your half smile, country mile, angel child
Want you to stay, want you to sway, want you
I'm in love with you
I'm in love with you
