

Tic Toc

LeAnn Rimes

Come inside my walls of ecstasy with me
Close the door and throw away the key
That's the way you can start by moving in nice and slow
Takin' your time to move down low
'Cause everything you do is everything I need
Lights are low, so here we go, let's get busyTic toc, hands on the clock
Time to make my body rock
Move with me, you get me
So hot that I can't stopTic toc, you got the spot
Here I come, ready or not
Move with me, you get me
So hot that I can't stopTic toc, tic toc, baby
Tic toc, tic toc, babyYou opened up my world to paradise
So nice, feels so good, my body liquefies
When you touch me, I lose control and start to shake
Your love is so good, I ain't gotta fake
'Cause everything you do is everything I like
The plot thickens, time's tickin', you're my toy tonightTic toc, hands on the clock
Time to make my body rock
Move with me, you get me
So hot that I can't stopTic toc, you got the spot
Here I come, ready or not
Move with me, you get me
So hot that I can't stopTic toc, tic toc, baby
Tic toc, tic toc, babyTic toc, the clock keeps on tickin'
Hurry up before it gets too late
Tic toc, the clock keeps on tickin'
Hurry up before it gets too lateA little to the left
A little to the right
A little bit longer
All the way tonightI close my eyes, my body tenses
Boy, your touch hits all my senses
Don't stop, come on, I'm almost thereIn the middle of the night, reality stops
And I'm suspended in your arms
As I melt from your touchTic toc, hands on the clock
Time to make my body rock
Move with me, you get me
So hot that I can't stopTic toc, you got the spot
Here I come, ready or not

Move with me, you get me
So hot that I can't stopTic toc, hands on the clock
Time to make my body rock
Move with me, you get me
So hot that I can't stopTic toc, you got the spot
Here I come, ready or not
Move with me, you get me
So hot that I can't stopTic toc, tic toc, baby
Tic toc, tic toc, baby
