Rainbow

The Good Morning Diary

Eighty beats per minute
Dive a little bit further, don't get out
The morning wants to keep us safe in here
Resting on your shoulder, we won't go
Until there's no more people out there
You can make it click, making me pop
Going for the goal with the clean cut
Searching no more, all melodies
Are coming ashore flushing over me
You are all over my rainbow
Taking the scene in my crazy dream
Only you are on my rainbow
No one else here, nothing gets near you
Nothing's fast or slow, it's in between
Where red and green, where land and oceans meet
Peacefully I'm quiet 'cause nothing here is mad
Bad or dangerous to know
You can make it click, making me pop
Going for the goal with the clean cut
Searching no more, all melodies
Are coming ashore flushing over me
You are all over my rainbow
Taking the scene in my crazy dream
Only you are on my rainbow
No one else here, nothing gets near you
You can make it click, making me pop
You can make it click, making me pop
You can make it click, making me pop
You can make it click, making me pop
You are all over my rainbow
You can make it click, making me pop
You can make it click, making me pop
You can make it click, making me pop
You can make it click, making me pop
And this beating shows how to make a rainbow
