

# Lovely

## Casey McQuillen

I didn't notice  
Were those roses  
Always white?

See I was busy,  
I had you with me  
That whole night

And I wondered why  
You even came  
But I decided to  
Be happy for a change

And we danced  
On this ice  
In the snow  
And I fell into your eyes  
And we danced  
Through the night  
With the stars  
I never want to say goodbye  
And you played me a song  
With your heart  
As it beat along with mine  
And I know that with you  
I have had  
The time of my life

You're almost perfect  
You're almost worth it  
But you leave me scared  
Cause if I see you  
And you just see through  
And you're no there?

And we danced  
On this ice  
In the snow  
And I fell into your eyes  
And we danced

Through the night  
With the stars  
I never want to say goodbye  
And you played me a song  
With your heart  
As it beat along with mine  
And I know that with you  
I have had  
The time of my life

And you are lovely  
I thought too lovely for me  
But when you're with me  
We can just be perfectly

And we danced  
On this ice  
In the snow  
And I fell into your eyes  
And we danced  
Through the night  
With the stars  
I never want to say goodbye  
And you played me a song  
With your heart  
As it beat along with mine  
And I know that with you  
I have had  
The time of my life
