Ain't Too Hard

Kevin Gates

These tats on my face don't mean nothin'
I was locked up, that don't mean nothin'
When you make it through the struggle it tend to mean hustle
The only one in my life to call them niggas upI ain't too hard to tell you how I feel
When you tat my name on, it make me know it's real
I ain't too hard to tell you how I feel
What you say you don't do, girl you know I will
I'm just the realest that you done met
I'm just the realest that you done met
I'm just the realest that you done met
Still surprised you haven't noticed it yet
The realest you ever metI hustle on backpage, now I got her face down
Frownin' while she take it, she don't like to make sounds
Bought a one way ticket, put her on the Greyhound
Workin' our hotels right before they played out
What's the problem? Why you not smilin'? We in the prime of our life
Supposed to be havin' the time of our life
Excuse the misunderstandin', sometimes you be so demandin'
Don't like to be told what to do, difficult but we manage
Said some things I didn't mean, caused emotional damage
I love the streets, I'm a gangster, I like to be in them daily
Your mother love me like a son but I'm not seein' me changin'
A lot of built up frustration due to past situationsI ain't too hard to tell you how I feel
When you tat my name on, it make me know it's real
I ain't too hard to tell you how I feel
What you say you don't do, girl you know I will
I'm just the realest that you done met
I'm just the realest that you done met
I'm just the realest that you done met
Still surprised you haven't noticed it yet
The realest you ever metTurned a hooker to a housewife and people say "how?"
Million dollar vision, you just gotta stay down
Don't get all in your feelings babe don't throw your weight around
She gon' kill herself if I leave but she know I don't play around
Got one text in this evenin', say she just made it in town
Wonderin' if I could see her, got some things to figure out
I ain't mean it, I was bluffin', thinkin' please don't leave me now
Boys II Men, I'm down on bended knees listenin' to The Weeknd
Now friends hate me sayin' "girl look when did he get out?"

My mother left when I was young
I'm commitment shy so when feelin's get involved I tend to run
Sometimes emotions get the best of me clearly
And I ain't never tried to straddle no fences
Been back and forth for a minute
And I know I seem rough
I've been hurt and you the only one that mean somethin'I ain't too hard to tell you how I feel
When you tat my name on, it make me know it's real
I ain't too hard to tell you how I feel
What you say you don't do, girl you know I will
I'm just the realest that you done met
I'm just the realest that you done met
I'm just the realest that you done met
Still surprised you haven't noticed it yet
The realest you ever met
