

# I Can't Make My Dreams Understand

Wanda Jackson

I kiss him goodnight and tell him I love him  
Then I keep my rendezvous  
Knowing that when I go to sleep  
I'm gonna dream about you I can't make my dreams understand that it's wrong  
To dream about you when with him I belong  
I've made vows to God to God and I've made vows to man  
But I just can't make my dreams understand My fingers are crossed when I say I'm happy  
But lying just don't make it right  
And each night when I go to sleep  
I dream you are holding me tight I can't make my dreams understand that it's wrong  
To dream about you when with him I belong  
I've made vows to God and I've made vows to man  
But I just can't make my dreams understand
