

Take The Long Way Home

Bruno Mars

We've been hanging out all night
Everything's been so nice
Wish I didn't have to go
Feeling sexy in your bedly
Touching me so gently
But I gotta get homeSo many things to tell ya
So long since I held ya
Ooh boy you just don't know
Just don't know
So here's my proposition
Don't speak boy just listen
Before we go down this roadTake me the long way home
I'm not trying to leave you know
Aint no rush so can you slow down
Take me the long way home
I know that we're pulling up
And circle around the block
So we can touch some moreKiss me while we're there
Touch me while we're there
Just take me the long way homeKiss me while we're there
Touch me while we're there
Just take me the long way homeWish I could stay all night
But I just can't tonight
Cause I gotta be up at 6
Boy you made my heart melt
When you undid my seatbelt
And told me to come give you a kissSo many things to tell ya
So long since I held ya
Ooh boy you just don't know
Just don't know
So here's my proposition
Don't speak boy just listen
Before we go down this road
[Lyrics from:
Take me the long way home
I'm not trying to leave you know
Aint no rush so can you slow down
Take me the long way home
I know that we're pulling up

And circle around the block
So we can touch some moreKiss me while we're there
Touch me while we're there
Just take me the long way homeKiss me while we're there
Touch me while we're there
Just take me the long way homeSomething about you makes me wanna drive all night all night all night long
I can't wait when till the next time I see you (uh) home homeTake me the long way home
I'm not trying to leave you know
Aint no rush so can you slow down
Take me the long way home
I know that we're pulling up
And circle around the block
So we can touch some moreKiss me while we're there
Touch me while we're there
Just take me the long way homeKiss me while we're there
Touch me while we're there
Just take me the long way homeYour telling me aint no rush to stay there's no delay oh oh
Oh oh oh oh...Kiss me while we're there
Touch me while we're there
Just take me the long way homeKiss me while we're there
Touch me while we're there
Just take me the long way home
ah babe ah baby just take me the long way home
