Face Down A Up// That's the way she like fu$k//

Verse 1
Play this track in the middle of the map//watch me go down south//when I hit from the back//she only messing with the ballers//who got them racks on racks//gold diggers trying to pimp me out my scratch///sucker free turned up in the streets//J's on my feet my lyrics having sex with the beat//black panties so //wet lights camera action when we on the set//doggystyle//got me feeling versitle//with that ass on deck//when I hit it from the right//when I hit it from the left//who's next put me too the test//who wanna go against the best in the Midwest//getting sex every time we flex//she arch her back up like the Lou//feeling brand new//screaming how she like it

She got me spending stacks in reverse// that p got a gift in a curse//it's levels to this sh$t trying hit it first before I spit a verse//dj's better get this work//spin me from the end to the earth//she claims she taste like //skittles an I'm her desert better be ready for the petty mother*** on my turf pimping your chick for the collection plate//from state to state roll with the real an not the fake//let me spit a line to bam bam//while she rocking my space jams//treat her like a queen she//get it from her momma because that ass so fat from the //back come visit my trap/so I can make it rain//in the middle of the map//in the middle in your lap//bumping an flexing screaming.
