

# Making the Most of the Night

Carly Rae Jepsen

You and me, we've been hanging around for the longest time  
I know when you're done, know what you need to get you high  
Top down, like the wind through your hair on a summer's night  
Outside, all of your fears, leave them behind  
Baby I'm speeding and red lights are run  
What I got you need it, and I'll run to your side  
When your heart is bleeding, I'm coming to get you (to get you, to get you, ooh)  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
Eyes wide, like you've never seen the ocean never seen the tides  
No hope, now you're seeing things that you'd lost sight of  
Taking off, got your hands in the air and you're feeling alright  
Gold vines, glistening on my skin for you  
Baby I'm speeding and red lights are run  
What I got you need it, and I'll run to your side  
When your heart is bleeding, I'm coming to get you  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
Baby take my hand now, don't you cry  
I won't let you sleep, I won't let you hide  
No more tears, don't waste another day  
Go on and fight, don't lay down to die  
Come on get up, you'll make it through okay  
Come on get up, don't waste another day  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you

I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
I know you've had a rough time  
Here I've come to hijack you (hijack you), I love you  
I'm making the most of the night  
Ooh  
I'm making the most of the night  
Ohh  
I'm making the most of the night
