

# Hear That Guitar Ring

## The Powder Blues Band

My buddies told me  
Man you've got what it takes  
But it really costs me  
I've made some bad mistakes  
Yes I've been busted  
Did some time in the can  
Something's don't work out  
Just the way that you've planned Still love to sing  
It's everything  
Just to hear that guitar sing  
Still love to sing  
It's everything  
Just to hear that guitar sing I was a real bad dude  
I use to drink and fight  
But that's all behind me  
You know I'm doing all right  
I keep my nose clean  
If you know what I mean  
You'd straighten out yourself  
If you'd seen what I'd seen Still love to sing  
It's everything  
Just to hear that guitar sing  
Still love to sing  
It's everything  
Just to hear that guitar sing (Guitar solo)  
Now every evening  
When the sun goes down  
I grab my guitar  
I head uptown  
Some come for dancing  
Others come just to get drunk  
Too many more nightclubs  
I'm gonna need my head shrunk Still love to sing  
It's everything  
Just to hear that guitar sing  
Still love to sing  
It's everything  
Just to hear that guitar sing
