If They Only Knew

3rd Storee

I could love you for the rest of my life
Set it off right, you be my wife
We make moves (uh huh) dang if they only knew,
Ill never hurt youVerse 1:
They say you do me wrong
They say I can't be strong
Are we the only ones who,
All: Can see what's goin' on?
They say that you and me
Were never meant to be
I wish that they knew about our love
How much you mean to meI was the only one to ever wanna be
The kind of man to take your hand and love you
faithfully...Chorus:
Why don't they just try, try and realize that you make
it all right when you look in to my eyes,
Wish they can see what you do to me,
If they knew how I feel
I'm still in love with you.(I still love you!)Verse 2:
They don't see what I see
They don't see you and me
They think ?? made of crystal and diamond rings,
They need to realize
That when I see your eyes
It makes me happy just be in you life(Open your eyes)Deeper Inside,
It's more that it seems,
If they only knew you're the girl of my dreams, baby.(Chorus)I got love for You
