

# Reality (Dreamworld)

## August Moon

You've painted pictures of this world that you can't find  
Drift into fantasy where you've lived your whole life  
Anywhere that you would want to go  
(Just think about)

Everything that you would want to be  
(Just think about it now)Chorus:

Let's goWe'll swim through rainbow oceans, watch as the stars dive  
Then sail the sky above us, rest on the soft clouds  
Crush every villain with a high caliber Nerf gun  
Explore new galaxies when we beat the last boss  
Anywhere that you would want to go  
(Just think about)

Everything that you would want to be  
(Just think about it now)ChorusYou want it, you need it, everything that you said  
Trapped inside your head, everything that you, everything that you  
Want it, you see it, trapped inside your head

Surrounded by a fence of disbelief and common sense  
Anywhere you want to go, everything you want to be  
Anything that you said, we'll make realityChorus
