

Goodbye?

Grandaddy

Just how, how many times
How many times have I sat right here
And seen that skyline at twilight
And told myself I'm gonna be alrightBut at the last light after sayin' goodbye
You can't rest at night inside your head
Yeah, at that last light after sayin' goodbye
It's such a sad sight 'cause of what we saidNow just how, how many times
How many times have I sat right here
And again that skyline and again that twilight
And again tell myself I'm gonna be alrightBut at that last light after saying goodbye
You can't rest at night inside your head
Yeah, at that last light after sayin' goodbye
It's such a sad sight 'cause of what we said[Incomprehensible]Goodbye, goodbye, goodbye, goodbye
Goodbye, goodbye, goodbye, goodbye
Goodbye, goodbye, goodbye, goodbye
