

# Let Me Down Easy

[Andrea von Kampen](#)

[Verse 1]

The top drawers are empty  
I don't have enough  
Things to replace  
All of your stuff And nothing's the same but  
The memories remain oh  
They're haunting, the closets  
There's a ghost in my brain [Chorus 1]  
In a house that's divided  
There's no use in fighting when  
You're already down on your knees So please

Be careful with me  
You're holding my heart  
Just let it down easy [Verse 2]

I wait for your phone call  
Or a letter to come  
But you must've found  
Yourself a new someone And maybe you like how  
She does her hair oh  
Give it a while

You just won't care [Chorus 2]  
In a house that's divided  
There's no use in fighting when  
You're already down on your knees So please  
Be gentle with me  
You're holding my heart  
Just let it down easy Oh please  
Be careful with me  
I know you've moved on  
Just let me down easy
