

Don't Hide Your Love

Cher

You never give yourself completely
It's just that you've been hurt before
You're so afraid to let me love you
You never leave an open door Don't judge me by some other lover
Who broke your heart and walked away
Come let's be fair with one another
My world is yours, I swear it
Say the word and we can share it Don't hide your love
(Don't hide your love)
Not if you care for me
(Not if you care for me)
It isn't fair for me
To worry and wonder and wait Don't hide your love
(Don't hide your love)
Just love me here and now
(Just love me here and now)
We'll work it out somehow
Don't you keep us apart
Baby unlock your heart
Don't hide your love Well I now the past has brought you sorrow
The clouds still hang around today
But don't let the rain fall on tomorrow
Baby we can make it together
'Cause I'm gonna love you forever Don't hide your love
(Don't hide your love)
Not if you care for me
(Not if you care for me)
It isn't fair for me
To worry and wonder and wait Don't hide your love
(Don't hide your love)
Just love me here and now
(Just love me here and now)
We'll work it out somehow
Don't you keep us apart
Baby unlock your heart
Don't hide your love Don't hide your love
(Don't hide your love)
Not if you care for me
(Not if you care for me)

It isn't fair for me
To worry and wonder and wait
