Intro (because Of You)

N2u

You we're the one
To keep my tears
From falling down
By telling me I could go on
When all hope is gone
So I sing to you this song
Yes I do
Like water flowing from the heart
Into the soul
You we're the one
That took my heart
And mended all the broken pieces
When I was down
You picked me up
And showed my life
Now I can live
I can live because of you
I can live
I can live because of you
I can live
I can live because of you
I can live
Because of you I can
