Stop Me

Sophie Barker

Would you like to look at some photos of my life
Spend some time as I recollect this passing by
You gave to me your open arm held me for a while
You called yourself a gentleman as I rememberI want to find like you somewhere close to light
I want to find like you somewhere close insideAnd in my dream there you were telling me you were really broken
And how long it has taken you to come and see me here
And I saw you you were there suspended in time
High in the sky waiting all the while smiling downI want to find like you, somewhere close to light
I want to feel like you, somewhere close insideAnd there's no one here to stop me
To stop me from breathing
From breaking, from making mistakesFinally I'm alone
Finally I'm aloneI want to find like you, somewhere close to light
I want to feel like you
