Shiver

Shawn Desman

I catch myself staring at your face when you're not awake
I just can't help it, no, no
Just having you here lying next to me
It's the little things that cause a storm inside of me
And every time you're close I shiver, shiver, shiver
Every time we kiss I shiver, shiver, shiver
I gotta catch my breath
(Breath)
So caught up that I forget
(Forget)
Every time you're close I shiver, shiver, shiver
Your hand in my hand, skin upon my skin over and again
I can't get enough, no, no, no
The way you give yourself to me I just can't believe
Sending chills all up and down my spine
I want you to know, I want you to know
That every time you're close I shiver, shiver, shiver
Every time we kiss I shiver, shiver, shiver
I gotta catch my breath

(Breath)
So caught up that I forget
(Forget)
Every time you're close I shiver, shiver, shiver
I wanna rush into your touch
It just feels so right
I wanna rush into your touch
It's like seeing the sun for the very first time
It gets me every time
It makes me shiver, shiver, shiver
Every time we kiss I shiver, shiver, shiver
I gotta catch my breath
(Breath)
So caught up that I forget
(Forget)
That every time you're close I shiver, shiver, shiver
I catch myself staring at your face when you're not awake
I just can't help it, no, no
