

# Burden

## Rotten Sound

Too heavy a burden to drag behind  
Given through your commitments  
Fighting against is a waste of your time  
Accept your role and die

Fulfill all of the requests  
One should never complain  
Forgive all the mistakes  
Your own management makes

All alone you must wade  
Find your ways to survive  
Crawl and kneel to succeed  
Waste your life and get killed  
Get yourself promoted again  
Widen the scope of slavery  
Extend the given trust  
Exploit and be exploited

Fulfill all of the requests  
One should never complain  
Forgive all of the mistakes  
Your own management makes  
All alone you must wade  
Find your ways to survive  
Crawl and kneel to succeed  
Waste your life and get killed

Die  
Rot  
Decay

Too heavy a burden to drag behind  
Given through your commitments  
Fighting against is waste of your time  
Accept your role and prepare to die
