How Do You Want My Love

Kim Wilde

It's good to meet you, how you doin'?
I haven't seen your face before
Yeah, I'm alone here, noticed you the minute
You walked through the doorIt's getting late and so much time is wasted
Dancing on the floor
And making small talk, I've been through that before
How do you want my loveYou know they told me, keep your distance
Got to play love by the rules
And I believed them wound up losing
Love left me for a foolThat I know I'm not the only one
Who knows what love can do
It's in your eyes
You've been hurt the same way tooHow do you want my love
How do you want my love tonight
How do you want my love
How do you want my love tonightHere with you I can smile away the pain
Make believe I can fall in love again
Won't you tell me your name?
How do you want my loveThe party's over, there's people leavin'
Friend sayin' their goodbyes
So come on over, I'll make you coffee
No need to end the nightHow do you want my love
How do you want my love tonight
How do you want my love
How do you want my love tonightHow do you want my love
How do you want my love tonight
How do you want my love
How do you want my love tonightHow do you want my love
How do you want my love tonight
