How many times have I called you
While you were working just to say
Left messages on your answering machine
About three or four times a day
There aren't many more ways in words that I can say
So I'll just say numerically from my heart to you - 143So many times I've brought roses
Just to see that smile on your face
I can't remember how many e-mails I sent you
Just to tell you about my day
There aren't many more ways in words that I can say
So I'll just say numerically from my soul to you - 143Girl you know you are so special to me
And you deserve to be treated exclusively
I treat you like Valentines Day 365 a year
Make sure that everything you need will always be right here
I just refuse to be your typical ordinary run of the mill
Garden variety lover
I'll make sure everyday you live will be like Christmas Eve
I want to make you feel fine
Just like a summer breeze
Cause I refuse to be predictable average run of the mill
Garden variety love
See sometimes words may get in the way
Of things that you really really meant to say
So I want to out this time to make sure that how I really feel
Gets through to you
Cause listen
There aren't many more ways and words that I can say
So I choose to tell you how I feel in a numerical way'
Got so tired of trying to find the most complicated way
To say it to you so I simplified and broke it down
To 143 - and that means I love you
