

Two Kinds

Film School

You ask me what would happen
If all strangers turned to stone
I'll tell you what might happen
If we could always be alone, alone

Time out, is it time out?
I'll take my best guess
And I'm out if I'm in doubt
Unless you contest

There's two kinds of love
And one we used to know
There's two kinds of love
And one we used to know

I know, I know, I know

There's two kinds of love
And one we used to know
There's two kinds of love
And one we used to know

There's two kinds of love
And one we used to know
There's two kinds of love
And one we used to know
