

Don't Leave Me On My Own

[Chris Isaak](#)

I've been thinking alot about you, I'm so lonely here without you
please,

Don't leave me on my own.

I was hoping that you would write me, or come and see me or just invite
me please,

Don't leave me on my own.

If you come back here, I'll fix the place up, I really love you, let's
not give up please.

Don't leave me on my own.

I stay up late now cause I've been crying, I say I'm ok but I'd be
lieing please.

Don't leave me on my own.

(Guitar Solo) Please don't leave me all alone.

I've been thinking alot about you, I'm so lonely here without you
please,

Don't leave me on my own.

Please don't leave me on my own.

Please don't leave me on my own.
