

# Empty Space

## Cymbals

Work that line  
Do you like this city?  
How did you find it?  
Did you find it pretty? Your friends on uniform  
Have floats on their mind  
They're following a sequence  
And they can't bring it twine(?) I see you get up  
And make that face  
Nobody sees you  
There's an empty space  
You're holding the world up  
You're making a face  
It's nice to see you  
Out of the rat race  
Did you think it's amazing?  
To follow your dreams?  
Right from the bottom,  
Then a hundred degrees  
Never seen one finger at me  
With a lacy eye  
You're afraid I'm king  
And you'll never get your time Use your eyes  
Cause you don't need speeches  
You don't see the whole side  
Just the distance between them You don't want to go  
In the usual direction  
Just lean to the side  
And you make up a reason  
I see you get up  
And make that face  
Nobody sees you  
There's an empty space  
You're holding the world up  
You're making a face  
It's nice to see you  
Out of the rat race  
Did you think it's amazing?  
To follow your dreams?  
Right from the bottom,

Then a hundred degrees
