## **Alabama Motel Room**

## **Matthew Good Band**

What is life if not a joke

One night she went out for smokes
And they took her apart like a rag doll

In the back of a van in an Alabama motel roomI have one of them tied up in the bathroom
I am down and out

But he will not get away with it againWhen the night comes in
I hope I'm out of the rain
When the night comes in
She makes me whole againI never sleep, I just watch TV
And the gun it lies next to me whispering
In an Alabama motel roomI reflect on her sweet perfume
I am down and out
But they will not get away with it againSay you love me
We will never get the chance again
