

Disguise

Dirty Heads

The one life to live so Ima live it
The one chance to give so Ima give it
All that I have with no limit
We made it this far but it's only the beginning
Got my eyes set strictly on the prizes
Standing in my own two shoes my whole life is
Easier said than done but I survived it
Aim for the stars dream big and don't hide it
I got my head up in the clouds now
I'm so high I'm never coming down
A lot giving up here watch it live from the sky
Everything becomes clear
And as the mist rises I can see horizons
A new day is dawn I'm just happy to be alive
Ima make it to the top If not I die trying
If I'm lying watch my nose grow Barbara Streisand
I got my head up in the clouds now
I'm so high I'm never coming down
A lot giving up here
watch it live from the sky
Everything becomes clear

[Chorus]

When life is boring
I chill on story
And the sky is soaring
When life is so real
Throw it up in the sky
And just live in the skies
Running the skies
Let's live in the skies

I've seen things I just can't explain
I've seen the fire and I've seen the rain
I've been places and ask questions
But was told my answer were blowing in the wind
So now I follow the purple haze
All the way through the everglades
I've broken through to the other side

Just to find myself burning castles in the sky
Never rise up I can see reality below me
Floating on a dream to the house of the holy
Hands clinched tight bringing defcon slowly
Cause life is too short to give up what you owe it
I got my head up in the clouds now
I'm so high I'm never coming down
A lot giving up here watch it live from the sky
Everything becomes clear

[Chorus]

When life is boring
I chill on story
And the sky is soaring
When life is so real
Throw it up in the sky
Let's live in the skies
Running the skies
Let's live in the skies

When life is boring
I chill on story
And the sky is soaring
When life is so real
Throw it up in the sky
And just live in the skies
Running the skies
Just live in the skies

When life is boring
I chill on story
And the sky is soaring
When life is so real
Throw it up in the sky
Let's live in the skies
Running the skies
Let's live in the skies
