

My Little Problem

Precious Child

I have a way
There is a way
You'll be the master
You'll be the slave I'll be the one
That takes it away
You'll be the one
That gives you today My little problem
With feeling pain
Every time I try
It's not there again Down from my eyes
World alive inside me
Bright now capsized
Life I sent away
On my little waters
Darker than the sea
Master of all my feelings
Please protect me I will arise
With or without what's me
Life won't tread on me
Life won't keep me still I have a way
There is a way
You'll be the master
You'll be the slave I'll be the one
That takes it away
You'll be the one
That gives you today
My little problem
With feeling pain
Every time I try
It's not there again x2 I've bled too much
For the weakest answer
I have my life
I have my mind In my life I'm living
I don't even want hope
I want the sea to hold me
I'll just swim away If I can't have
Escape from all that harms me
I know the answer
I will free the slave I have a way

There is a way
You'll be the master
You'll be the slave I'll be the one
That takes it away
You'll be the one
That gives you today My little problem
With feeling pain
Every time I try
It's not there again x2 I have a way
There is a way
You'll be the master
You'll be the slave I'll be the one
That takes it away
You'll be the one
That gives you today Life of waters
One I never answered
One I always needed
One I put below me Why would I choose
To discard my only answer?
I couldn't take it
I still can't at all If I had a loophole
If I had the easy way
I wouldn't do this
I wouldn't drown it all I have a way
There is a way
You'll be the master
You'll be the slave I'll be the one
That takes it away
You'll be the one
That gives you today My little problem
With feeling pain
Every time I try
It's not there again x4
