Mucopurulence Excretor

Carcass

Pyosis mucolysifies malignant mucocoeles
Pustules endocrinating disseminated mortified cells
Flesh punctuated by cancerous pustules
Burning your face with formicating papulesMucopurulence excretorMucopurulent organs digested in sepsis
Mucolysifying, rancidifying as you eat your own cysts
Putrefying your pyorrhoea - infested corpse excretes away
Expelling pyuria and septic goitrous membrane
