

Nathaniel

Fingertight

Go and find him
'cause this may be the only chance you have to
To redefine him
And mold him into something that you find beautiful And ever since Ive been here
Youve done nothing but
Hold him down and make him live in this world
That you have some how created What about him? Its just about the time they sit you down
They run the sickness through your mind
They tell you everythings gonna be just find until... Its just about the time they sit you down
They run the sickness through your mind
They tell you everythings gonna be just find until... Then Go and rescue him
'cause this may be the only chance you have to
To redefine him
And mold him into something that you find beautiful And ever since Ive been here
Youve done nothing but
Hold him down and make him live in your life
(youve done nothing) What about him? Its just about the time they sit you down
They run the sickness through your mind
They tell you everythings gonna be just find until... Its just about the time they sit you down
They run the sickness through your mind
They tell you everythings gonna be just find until... And oh
Im getting better
Im better with you And oh
Im getting better
With or without you And oh
Im getting better
Im better now that i have seen those things you hide from me What about him? What about you? Its just about the
time they sit you down
They run the sickness through your mind
They tell you everythings gonna be just find until... Its just about the time they sit you down
They run the sickness through your mind
They tell you everythings gonna be just find until... And oh
Im getting better
Im better with you And oh
Im getting better
With or without you And oh
Im getting better
Im better now that i have seen those things you hide from me Repeat 2x They run the sickness through your mind.
