Swallow the Flames

Disarmonia Mundi

Bleeding' over my face
Yeah all over my face
Disgusting'?
No, it's just a game
Obey
Betray
Come out and play
I wanna see you swallow my painThe end of sanity is clear
This time I won't pay for your sins
For all my life
I've been so weak
Hiding silent like an ordinary sheep
But now I seek
The end is near
The beast inside me still
Longs to be unchainedHatred's burning fast
Inside my breast
Relentless
Boundless
Still impressed?
Genocidal machine
Homicidal relief
Pitch-black dreams... Just fuck it!Burning me
Bullets over you
Burning deep
This time I'll see your ego's fallCloser
With no regrets I kneel alone
Among the ruins of my worldJag blir s jvla trtt
P att ditt jvla tjt
S knip din jvla kft
Och ge mig lite matGet lost
Fucker
Before I nail you down
Show me
Your God
I cannot wait to see you crawlHellfire in my grip
Infernal greed
Damn right!
I wanna see you bleed

Insane
Psychotic
Here I come
I'm just a freak out of control
