

# Not Enough Time

## Inxs

And I was lost for words in your arms  
Attempting to make sense of my aching heart  
If I could just be everything and everyone to you  
    This life would be just so easy  
Not enough time for all that I want for you  
    Not enough time for every kiss  
    And every touch and all the nights  
        I wanna be inside you  
        We will make time stop  
            For the two of us  
            Make time stop  
                And listen for our sighs  
Not enough time for all that I want for you  
    Not enough time for every kiss  
    And every touch and all the nights  
        I wanna be inside you  
        Make time stop  
            Make time stop  
                In our fight against the end  
                Making love, we are immortal

We are the last two left on earth  
And I was lost for words in your arms  
Attempting to make sense of my aching heart  
If I could just be everything and everyone to you  
    Not enough time for all that I want for you  
        Not enough time for every kiss  
        Not enough time for all my love  
        Not enough time for every touch  
            Make time stop  
            Make time stop  
    Not enough time for all that I want for you  
        Not enough time for every kiss  
        And every touch and all the nights  
            I wanna be inside you  
            We will make time stop  
                For the two of us  
                We will make time stop  
                We will make time stop

For the two of us  
We will make time stop
