

Madman

Authority Zero

Advisory - the following lyrics contain explicit language:

Come on, I'll take you on a journey through the mind of a madman
With the common misconception, got an ace in his upper hand
Sees 20/20 but as blind as can be
Why's everybody always pickin' on me? When insecurity comes a-knockin', it plans to take you for a ride
It doesn't come so easy with the devil by its side
Frustration, non-friction, this vixen, you lose
Ah, come on, let's face it, no one's pickin' but you She'll take your lovin', leave you feelin' so confused
She'll take your lovin', boy, there's nothin' more that you can do
She'll say that she wants to be with you, she wished you were dead
She's fucked with your mind, now she's got in your head
What more now can you say? What she'll say, not always what she'll do
Watch out for things she's never gonna tell you
What she'll say, not always what she'll do
Watch out for things she's never gonna tell you Now jump back, baby girl, you'd better believe it
Got the bull by the horns like it as just open season
Faked me out again, but I watch your true colors show
Because where I'm standin' from, hell, nobody knows Can you feel it? It's real, you've got me now
You've taken over, taken off and taken me down
Through your mind runnin' through your soul
With every look, like daggers piercin', girl, you just don't know That she'll take your lovin', leave you feelin' so
confused
She'll take your lovin', boy, there's nothin' more that you can do
She'll say that she wants to be with you, she wished you were dead
She's fucked with your mind, now she's got in your head
The secrets of a madman, what can you say? What she'll say, not always what she'll do
Watch out for things she's never gonna tell you
What she'll say, not always what she'll do
Watch out for things she's never gonna tell you What she'll say, not always what she'll do
Watch out for things she's never gonna tell you
What she'll say, not always what she'll do
Watch out for things she's never gonna tell you What she'll say, not always what she'll do
Watch out for things she's never gonna tell you

What she'll say, not always what she'll do
Watch out for things she's never gonna tell you
