

# This Is Pop?

[XTC](#)

In a milk bar and feeling lost  
Drinking sodas as cold as frost  
Someone leans in my direction  
Quizzing on my juke-box selection What do you call that noise  
That you put on?  
This is pop, yeah, yeah  
This is On a walkway and moving fast  
All I get is transistor blast  
Someone leans in my direction  
Quizzing on my station selection What do you call that noise  
That you put on?  
This is pop, yeah, yeah  
This is We come the wrong way  
We come the long way  
We play the songs much too loud This is pop, yeah yeah
