

Keep Me Young

Sanctus Real

Feels like I've seen everything out there
But next to You nothing compares
We're all looking for love,
To catch that breath of new life And You're the fountain everyone's after
The promise of love and forever
Time slips away, but You're holding me
So it's alright There's nothing more sure than this romance
Nothing better than my heart in Your hands
Who can keep me from a love that lasts?
No one can
You keep me young, You keep me young
You keep me young, under an old sun Days go by fast as lightning
Life is short but I can't fight it
So I lean in to You, and Your hope burns through
This old life There's nothing more sure than this romance
Nothing better than my heart in Your hands
Who can keep me from a love that lasts?
No one can
You keep me young, You keep me young
You keep me young, under an old sun
You keep me young, You keep me young
You keep me young, yeah You're the only one When I'm with you
There's nothing better cause You're all that matters
When I'm with you
There's nothing better cause You're all that matters There's nothing more sure than this romance
Nothing better than my heart in Your hands
Who can keep me from a love that lasts?
No one can
You keep me young, You keep me young
You keep me young, under an old sun
You keep me young, You keep me young
You keep me young, yeah You're the only one
