Stop Playing With My Heart

Ijahman Levi

Spending time away from me, oh girl
Loneliness and I don't get alone
Trying hard denying my love
It looks like you're checking out in love
In other words stop playing with my heartEvery dream has a lover, oh girl
I don't want to have sweet dreams alone
Late at night I'm here without love
It looks like you're checking out in love
In other words stop playing with my heartSweet dreams I get when you're around me
Butterfly girl, flying round the world
You a Butterfly girl
Stop playing with my heart
