

# Earth, Sky & C.

## I Mother Earth

Given good ground to walk around  
It would mean so much to me  
To see things for my still young self  
Or else, I might not believe  
Whatever people say in their own ways  
Colorful faces and easy goin' shame  
Almost tellin' me, things I need to know  
We're travelin', lookin' for the world  
Thinkin' in different words  
I'm not leavin' you, no way friend  
You'd ever last, yo no voye  
Sweet earth boy  
You'll have to think and wait, wait  
Given wide skies to search and fly  
It would sure seem to me  
That it's so full of everythin'  
Either seen or unseen  
Endless night displays  
Cosmic death rays  
That hold your feet in place while  
Your mind runs away  
What I didn't know is that no one's goin'  
This old bus sits  
While jungles laugh and sing  
Nobody filled me in  
I'm not leavin' you, no way friend  
You'd ever last, yo no voye  
Sweet earth boy  
You'll have to think and wait  
I'm not leavin' you, no way friend  
You'd ever last, yo no voye  
Sweet earth boy  
You'll have to think and wait  
I'm not leavin' you, no way friend  
You'd ever last, yo no voye  
Sweet earth boy  
You'll have to wait  
I'm not leavin' you, no way friend  
You'd ever last, yo no voye

Sweet earth boy  
You'll have to think and wait
