## **Devour**

## **Marilyn Manson**

I'll swallow up all of you like a big bottle of big, big pills
You're the one that I should never take
But I can't sleep until I devour you
I can't sleep until I devour youYou're a flower that's withering
I can't feel your thorns in my head
This is no impressionabilityYou're not crying, this is blood all over me
You're not crying, this is blood all over meAnd I'll love you if you let me

You're not crying, this is blood all over meAnd I'll love you if you let me And I'll love you if you won't make me starveI used to hold your heart to neck

I know I'll miss you if I close my eyes But this is loaded with an open film

I'll see you and I'll blow your heart to pieces I will blow your heart to pieces
I will blow your heart to pieces

I will blow your heart to piecesAnd I'll love you if you let me And I'll love you if you won't make me starveOh, oh, oh

> Oh, oh, oh, oh Oh, oh, oh, oh

Oh, oh, ohMy pain's not ashamed to repeat itself
Pain's not ashamed to repeat itself
Pain's not ashamed to repeat itself
Pain's not ashamed to repeat itself can't sleep until I devour you

I can't sleep until I devour you I can't sleep until I devour you I can't sleep until I devour you

I can't sleep until I devour youAnd I'll love you if you let me And I'll love you if you won't make me starve
