

You Dream I'll Drive

Little River Band

Lean back, let the wind blow through your hair, baby
We ain't done nothing for nothing for such a long time, angry
I wanna spend some time with you, out here in the big clear blue
Round here ain't much else we can doSomeday we're gonna blow this town
And chase that old sunset down
All the way around the world, you and I
But right now we got this open road
And four wheels that wanna row
So move over a little closer, girl, tonight
You dream, I'll drive
Girl, close your eyes and let your mind wander
You can end up a million miles from here in a moment
Picture us getting swept away to some far off exotic place
Take a guess, it's all it takesSomeday we're gonna blow this town
And chase that old sunset down
All the way around the world, you and I
But right now we got this open road
And four wheels that wanna row
So move over a little closer, girl, tonight
You dream, I'll drive
But right now we got this open road
And four wheels that wanna row
So move over a little closer, girl, tonight
You dream, I'll drive
I'll drive
