# Death do Us Part

## No Hollywood Ending

You can't live to make mistakes
When you're dead and gone
With your heart held in my head
The memory of your bloodstains
All over broken picture framesHow could you tell me that I was wrong?
When you would have done the same
Toy with emotions until they're gone
You would have done the sameI stole your heart ripped it out
And smashed it on this floor
You have no need for such a useless thing
Broken, forever moreLife after this there's no such thing
You replace my thoughts
With these painful memories
Now you're gone you're 9 feet under
To far down to ever uncoverHow could you tell me that I was wrong?
When you would have done the same
Toy with emotions until they're gone
You would have done the sameI stole your heart ripped it out
And smashed it on this floor
You have no need for such a useless thing
Broken, forever moreLeave it all to me
I won't forget about you
Leave it all to me
I'll steal your heart
Leave it allLeave it all to me
I won't forget about you
Leave it all to me
I'll steal your heart
Leave it allI stole your heart ripped it out
And smashed it on this floor
You have no need for such a useless thing
Broken, forever moreI stole your heart ripped it out
And smashed it on this floor
You have no need for such a useless thing
Broken, forever moreNow you're gone
You're 9 feet under
To far down to ever uncoverNow you're gone
You're 9 feet under
