

# The Difference

Nick Jonas

You never had a love like this, baby, not this kind  
You ain't never been touched like this, feel it down your spine  
I ain't never been one to miss, don't plan on starting tonight  
I think I could be the perfect fit in your life Yeah, you're looking for love  
You say nothing's good, good enough  
You've been broken like way too much  
Let me fix you baby 'Cause you ain't too uptight  
You keep it on the low but you know your body wants mine  
Where you tryna go, when you know I'll never waste your time, yeah  
If you don't feel the difference when you walk away  
'Cause you gonna learn today  
I'll show you the difference baby (woo-hoo-oooh, woo-hoo)  
I'll show you the difference baby (woo-hoo-oooh, woo-hoo) I love you like a grown man, pushing all your buttons  
I'll let you in on all my plans, you might learn something (might learn something)  
And you might be surprised what you get out of it  
These clothes keep you confined, so just get out of 'em Yeah, you're looking for love  
You say nothing's good, good enough  
You've been broken like way too much  
Let me fix you baby 'Cause you ain't too uptight  
You keep it on the low but you know your body wants mine  
Where you tryna go, when you know I'll never waste your time, yeah  
If you don't feel the difference when you walk away  
'Cause you gonna learn today  
I'll show you the difference baby (woo-hoo-oooh, woo-hoo)  
I'll show you the difference baby (woo-hoo-oooh, woo-hoo) And you will be surprised what you get out of it  
These clothes keep you confined, so just get out of 'em  
And I will redefine all the damages and fix it  
I'm on a mission, to show you the difference You're looking for love  
You say nothing's good, good enough  
You've been broken like way too much  
Let me fix you baby 'Cause you ain't too uptight  
You keep it on the low but you know your body wants mine  
Where you tryna go, when you know I'll never waste your time  
If you don't feel the difference when you walk away  
'Cause you gonna learn today  
I'll show you the difference baby (woo-hoo-oooh, woo-hoo)  
I'll show you the difference baby (woo-hoo-oooh, woo-hoo)
