All My Friends

My American Heart

all my friends drowning at sea
yeah everyone except for you and me
and they'll be at the bottom
and they'll be at the bottom
an anchor tied to their feet
with all the love, their hearts will sink
and they'll be at the bottom
and they'll be at the bottom
i think i'll take the long way home
i suggest i sit up straight sit up straight
i sit up straight sit up straight
i think i'll take the long way home
i suggest i straighten up and get out
straighten up and get out, yeah
you know i wont mind
if the current falls over you
you know i wont mind
if the current falls over me too
because i think i'll take the long way home
i suggest i sit up straight sit up straight
i sit up straight sit up straight
i think i'll take the long way home
i suggest i straighten up and get out
i straighten up and get out, yeah
i think i'll take the long way home
i think i'll take the long way home
