Belial's Bride

I'm striving in hope to find if you would be a part of my soul.(4x)

Cause, I do need you. I do love you. I do want to satisfy you.
I do need you. I do love you. I do want to satisfy you.(2x)

I'm striving in hope to find if you would be a part of my soul.(2x)

Cause, I do need you. I do love you. I do want to satisfy you.
I do need you. I do love you. I do want to satisfy you.(2x)

I'm striving in hope to find if you would be a part of my soul.(2x)

I will hold you. I will cherish you. I will breathe you. I will treasure you.
I will hold you. I will cherish you. I will breathe you. I will pleasure you.

I'm striving in hope to find if you would be a part of my soul.(2x)

Do you need me? Do you love me? Do you want to satisfy me?(2x)

Will you hold me? Will you cherish me? Will you breathe me? Will you treasure me?
Will you hold me? Will you cherish me? Will you breathe me? Will you pleasure me?
