Weightless

Howie Day

I was alone so not afraid
I was staying up with you way too late
I thought someone like you
Could come around and make my faults
Seem like they were none at allCome on, somebody help me out
I'm underwater drowned in doubtBut it feels just like we're weightless
Weightless when we're together
Isn't it time to face it what we already know?Seems just like we fake it
Pretend it isn't happening, pretend that it'll go away
Oh, but what do I knowIt was all mixed up ahead of the curve
When you were lying to the world
See I wanna lie there too
Feeling down and all around
I see your back in every townYou'll be the one to hold me down
Tell me is it too late now?'Cause it feels just like we're weightless
Weightless when we're together
Isn't it time to face it what we already know?Seems just like we fake it
Pretend it isn't happening, pretend that it'll go away
Oh, but what do I knowI want to be alive like you, be so easy like you
I wanna love like you do, oh wondrous oneIt feels just like we're weightless
Weightless when we're together
Isn't it time to face it what we already know?Seems just like we fake it
Pretend it isn't happening, pretend that it can go awayFeels just like we're weightless
Weightless when we're together
Isn't it time we faced it what we already know?Feels just like we're turning, turning ourselves in circles
Pretend that we can find a way
Oh, but what do I know, but what do I know
Oh, but what do I know
